

## Specification Sheet

|                          |                                                  |
|--------------------------|--------------------------------------------------|
| Product Name:            | <b>5-Fluoro-2-methyl-1H-indene-3-acetic acid</b> |
| Specifications & Purity: | ≥98%                                             |
| SKU #                    | <b>F134113</b>                                   |

| Parameter                | Limit Values          |
|--------------------------|-----------------------|
| Purity(HPLC)             | 98-100 (%)            |
| LC-MS for identification | Conforms              |
| Proton NMR spectrum      | Conforms to Structure |
