## Specification Sheet

|                          |                                                                                    |
|--------------------------|------------------------------------------------------------------------------------|
| Product Name:            | <b>2-Fluoro-4-formylphenylboronic Acid (contains varying amounts of Anhydride)</b> |
| Specifications & Purity: | ≥95%                                                                               |
| SKU #                    | <b>F139365</b>                                                                     |

| Parameter                  | Limit Values                                |
|----------------------------|---------------------------------------------|
| Purity (Titration by NaOH) | 95-105 (%)                                  |
| Appearance (F139365)       | white to tan powder, crystals and/or chunks |
| Proton NMR spectrum        | Conforms to Structure                       |
