

## Specification Sheet

|                          |                                        |
|--------------------------|----------------------------------------|
| Product Name:            | <b>4'-Formylbenzo-15-crown 5-Ether</b> |
| Specifications & Purity: | >98.0%(HPLC)                           |
| SKU #                    | <b>F156572</b>                         |

| Parameter            | Limit Values                                    |
|----------------------|-------------------------------------------------|
| Purity(HPLC)         | 98-100 (%)                                      |
| Melting point        | 83-87 (°C)                                      |
| Appearance (F156572) | white to yellow powder, crystals, and/or chunks |
| Proton NMR spectrum  | Conforms to Structure                           |
