## Specification Sheet

|                          |                                        |
|--------------------------|----------------------------------------|
| Product Name:            | <b>4-Fluorobenzylsulfonyl chloride</b> |
| Specifications & Purity: | 97%                                    |
| SKU #                    | <b>F165549</b>                         |

| Parameter            | Limit Values                                      |
|----------------------|---------------------------------------------------|
| Melting point        | 58-61 (°C)                                        |
| Purity(HPLC)         | 97-100 (%)                                        |
| Appearance (F165549) | White to Yellow to Tan Powder, Crystals or Chunks |
| Proton NMR spectrum  | Conforms to Structure                             |
