## Specification Sheet

|                          |                                          |
|--------------------------|------------------------------------------|
| Product Name:            | <b>(3-Fluoropyridin-4-yl)methanamine</b> |
| Specifications & Purity: | ≥95%                                     |
| SKU #                    | <b>F187278</b>                           |

| Parameter             | Limit Values                            |
|-----------------------|-----------------------------------------|
| Fluorine NMR Spectrum | Conforms to Structure                   |
| Proton NMR spectrum   | Conforms to Structure                   |
| Appearance(F187278)   | yellow to light brown to brown (Liquid) |
| Purity(HPLC area)     | 95-100 (%)                              |
