## Specification Sheet

|                          |                                        |
|--------------------------|----------------------------------------|
| Product Name:            | <b>1,1'-Ferrocenedicarboxylic acid</b> |
| Specifications & Purity: | <b>≥96%</b>                            |
| SKU #                    | <b>F468279</b>                         |

| Parameter                | Limit Values                                              |
|--------------------------|-----------------------------------------------------------|
| Appearance(F468279)      | Orange to Orange-Brown to Brown Powder or Chunks to Solid |
| Purity(HPLC area)        | 96-100 (%)                                                |
| LC-MS for identification | Conforms                                                  |
| NMR Spectrum 1H          | Conforms to Structure                                     |
