

## PRODUCT IDENTITY

|                 |                                                              |                |                                                                 |
|-----------------|--------------------------------------------------------------|----------------|-----------------------------------------------------------------|
| PRODUCT NAME    | 2-[4-Aminosulfonyl-phenyl]-ethyl-5-methylpyrazinecarboxamide | PRODUCT NUMBER | G710394                                                         |
| Grades & Purity | ≥95%                                                         | VERSION        | 3                                                               |
| CAS NUMBER      | 33288-71-0                                                   | FORMULA        | C <sub>14</sub> H <sub>16</sub> N <sub>4</sub> O <sub>3</sub> S |
| FORMULA WEIGHT  | 320.37g/mol                                                  |                |                                                                 |

## ACCEPTANCE CRITERIA

| PARAMETER                | SPECIFICATION / LIMIT |
|--------------------------|-----------------------|
| Purity(HPLC area)        | 95-100 (%)            |
| LC-MS for identification | Conforms              |
| NMR Spectrum 1H          | Conforms to Structure |
