

## Specification Sheet

|                          |                         |
|--------------------------|-------------------------|
| Product Name:            | <b>6-Heptynoic acid</b> |
| Specifications & Purity: | 97%                     |
| SKU #                    | <b>H107741</b>          |

| Parameter            | Limit Values                                 |
|----------------------|----------------------------------------------|
| Purity(GC)           | 97-100 (%)                                   |
| Appearance (H107741) | Colorless to White to Yellow Liquid to Solid |
| Proton NMR spectrum  | Conforms to Structure                        |
