## Specification Sheet

|                          |                                          |
|--------------------------|------------------------------------------|
| Product Name:            | <b>Hexamethylene diisocyanate trimer</b> |
| Specifications & Purity: | Viscosity:400-700 cP(23 °C)              |
| SKU #                    | <b>H1520565</b>                          |

| Parameter             | Limit Values          |
|-----------------------|-----------------------|
| Viscosity (23°C,neat) | 400-700 (mPa·S)       |
| Isocyanato            | 19.3-19.9 (%)         |
| Hazen                 | ≤40                   |
| Infrared spectrum     | Conforms to Structure |
