## Specification Sheet

|                          |                                           |
|--------------------------|-------------------------------------------|
| Product Name:            | <b>7-Hydroxy-4-methyl-8-nitrocoumarin</b> |
| Specifications & Purity: | 96%                                       |
| SKU #                    | <b>H168209</b>                            |

| Parameter           | Limit Values          |
|---------------------|-----------------------|
| Purity(HPLC)        | 96-100 (%)            |
| Melting point       | 254-259 (°C)          |
| Proton NMR spectrum | Conforms to Structure |
