

## Specification Sheet

|                          |                                                                  |
|--------------------------|------------------------------------------------------------------|
| Product Name:            | <b>2-Hydrazono-3-methyl-2 , 3-dihydrobenzo[d]thiazole (MBTH)</b> |
| Specifications & Purity: | <b>≥98%</b>                                                      |
| SKU #                    | <b>H693567</b>                                                   |

| Parameter           | Limit Values             |
|---------------------|--------------------------|
| Appearance(H693567) | White to off-white solid |
| Purity(HPLC)        | 98-100 (%)               |
| Melting point       | 142-148 (°C)             |
| Proton NMR spectrum | Conforms to Structure    |
