

## Specification Sheet

|                          |                                                                                                                               |
|--------------------------|-------------------------------------------------------------------------------------------------------------------------------|
| Product Name:            | <b>Heparin disaccharide II-H sodium salt (<math>\alpha</math>-<math>\Delta</math>UA-[1<math>\rightarrow</math>4]-GlcN-6S)</b> |
| Specifications & Purity: | <b><math>\geq 95\%</math>(HPLC)</b>                                                                                           |
| SKU #                    | <b>H759977</b>                                                                                                                |

| Parameter                | Limit Values |
|--------------------------|--------------|
| Purity(HPLC)             | 95-100 (%)   |
| LC-MS for identification | Conforms     |
