## Specification Sheet

|                          |                                                                             |
|--------------------------|-----------------------------------------------------------------------------|
| Product Name:            | <b>2-Methoxy-6-methyl-5,6,6a,7-tetrahydro-4H-dibenzo[de,g]quinolin-1-ol</b> |
| Specifications & Purity: | <b>≥97%</b>                                                                 |
| SKU #                    | <b>H959942</b>                                                              |

| Parameter                | Limit Values          |
|--------------------------|-----------------------|
| Purity(HPLC)             | 97-100 (%)            |
| LC-MS for identification | Conforms              |
| Proton NMR spectrum      | Conforms to Structure |
