

## Specification Sheet

|                          |                                          |
|--------------------------|------------------------------------------|
| Product Name:            | <b>N-Ethylcarbazole-3-carboxaldehyde</b> |
| Specifications & Purity: | ≥98.0%(GC)                               |
| SKU #                    | <b>I136773</b>                           |

| Parameter             | Limit Values                                       |
|-----------------------|----------------------------------------------------|
| Purity(GC)            | 98-100 (%)                                         |
| Melting point         | 88-91 (°C)                                         |
| Appearance (I136773)  | White to Yellow, Green to Brown Powder or Crystals |
| Solubility in Toluene | almost transparency                                |
| NMR Spectrum 1H       | Conforms to Structure                              |
