

## Specification Sheet

|                          |                          |
|--------------------------|--------------------------|
| Product Name:            | <b>N-Methylacetamide</b> |
| Specifications & Purity: | 99%                      |
| SKU #                    | <b>M106450</b>           |

| Parameter             | Limit Values                    |
|-----------------------|---------------------------------|
| Purity(GC)            | 99-100 (%)                      |
| Crystallization point | 28-31 (°C)                      |
| Appearance (M106450)  | white solid or colorless liquid |
| Proton NMR spectrum   | Conforms to Structure           |
