

## Specification Sheet

|                          |                                        |
|--------------------------|----------------------------------------|
| Product Name:            | <b>Methyl 2-Chloro-5-nitrobenzoate</b> |
| Specifications & Purity: | ≥98.0%(GC)                             |
| SKU #                    | <b>M136448</b>                         |

| Parameter           | Limit Values                                     |
|---------------------|--------------------------------------------------|
| Melting point       | 67-72 (°C)                                       |
| Purity(GC)          | 98-100 (%)                                       |
| Proton NMR spectrum | Conforms to Structure                            |
| Appearance(M136448) | White to Light yellow to Green powder to crystal |
