## Specification Sheet

|                          |                                                          |
|--------------------------|----------------------------------------------------------|
| Product Name:            | <b>3-[(Methylamino)carbonyl]benzenesulfonyl chloride</b> |
| Specifications & Purity: | 97%                                                      |
| SKU #                    | <b>M165454</b>                                           |

| Parameter                       | Limit Values             |
|---------------------------------|--------------------------|
| Purity(HPLC)                    | 97-100 (%)               |
| Purity (Argentmetric Titration) | 96.5-103.5 (%)           |
| Appearance (M165454)            | White to off-white solid |
| Proton NMR spectrum             | Conforms to Structure    |
