## Specification Sheet

|                          |                                       |
|--------------------------|---------------------------------------|
| Product Name:            | <b>sodium 3-aminobenzenesulfonate</b> |
| Specifications & Purity: | 60% aqueous solution                  |
| SKU #                    | <b>M165967</b>                        |

| Parameter           | Limit Values                         |
|---------------------|--------------------------------------|
| Appearance(M165967) | yellow to brown Semi-Solid to liquid |
| Proton NMR spectrum | Conforms to structure                |
| concentration       | 55-65 (%)                            |
