

## Specification Sheet

|                          |                                                         |
|--------------------------|---------------------------------------------------------|
| Product Name:            | <b>[(4-methoxyphenyl)methyl]hydrazine hydrochloride</b> |
| Specifications & Purity: | 97%                                                     |
| SKU #                    | <b>M175563</b>                                          |

| Parameter                               | Limit Values          |
|-----------------------------------------|-----------------------|
| Proton NMR spectrum                     | Conforms to structure |
| Purity(Titration by AgNO <sub>3</sub> ) | 97-102.5 (%)          |
