## Specification Sheet

|                          |                                                  |
|--------------------------|--------------------------------------------------|
| Product Name:            | <b>Methyl 4-chloro-3-methoxy-5-nitrobenzoate</b> |
| Specifications & Purity: | ≥98%                                             |
| SKU #                    | <b>M194332</b>                                   |

| Parameter                 | Limit Values          |
|---------------------------|-----------------------|
| Melting point             | 102-105 (°C)          |
| Purity(HPLC)              | 98-100 (%)            |
| Appearance (M194332Form)  | Powder                |
| Appearance (M194332Color) | Light Yellow          |
| Proton NMR spectrum       | Conforms to Structure |
