## Specification Sheet

Product Name: **Methylaluminum Bis(2,6-di-tert-butyl-4-methylphenoxide) (0.4mol/L in Toluene)**

Specifications & Purity: 0.4mol/L toluene solution

SKU # **M337742**

| Parameter                       | Limit Values                                     |
|---------------------------------|--|
| Solvent(Toluene)                | Conform  |
| Concentraion                    | 0.2-0.6 (mol/L)                                  |
| ICP:Confirms Aluminum Component | Confirmed  |
| Appearance(M337742)             | Colorless to Light orange to Yellow clear liquid |
| Infrared spectrum               | Conforms to Structure                            |
