

## Specification Sheet

|                          |                             |
|--------------------------|-----------------------------|
| Product Name:            | <b>Mycophenolate sodium</b> |
| Specifications & Purity: | ≥98%                        |
| SKU #                    | <b>M339508</b>              |

| Parameter                      | Limit Values                             |
|--------------------------------|------------------------------------------|
| Appearance(M339508)            | White or almost white crystalline powder |
| Purity(HPLC)(dry basis)        | 98-100 (%)                               |
| NMR Spectrum 1H                | Conforms to structure                    |
| ICP: Confirms Sodium Component | Confirmed                                |
