## Specification Sheet

|                          |                                                     |
|--------------------------|-----------------------------------------------------|
| Product Name:            | <b>Methyl 3-(1-pyrrolyl)thiophene-2-carboxylate</b> |
| Specifications & Purity: | ≥97%                                                |
| SKU #                    | <b>M697925</b>                                      |

| Parameter                | Limit Values          |
|--------------------------|-----------------------|
| Purity(HPLC)             | 97-100 (%)            |
| LC-MS for identification | Conforms              |
| Proton NMR spectrum      | Conforms to Structure |
