

## Specification Sheet

|                          |                           |
|--------------------------|---------------------------|
| Product Name:            | <b>1,8-Naphthosultone</b> |
| Specifications & Purity: | ≥98%(HPLC)                |
| SKU #                    | <b>N134449</b>            |

| Parameter           | Limit Values                                       |
|---------------------|----------------------------------------------------|
| Purity(HPLC)        | 98-100 (%)                                         |
| Appearance(N134449) | Light orange to yellow to green powder to crystals |
| Melting point       | 156-160 (°C)                                       |
| Proton NMR spectrum | Conforms to Structure                              |
