## Specification Sheet

|                          |                                  |
|--------------------------|----------------------------------|
| Product Name:            | <b>n-Octyl 4-Hydroxybenzoate</b> |
| Specifications & Purity: | ≥98%                             |
| SKU #                    | <b>N159578</b>                   |

| Parameter                | Limit Values                                         |
|--------------------------|------------------------------------------------------|
| Appearance(N159578)      | White to cream to Almost white powder to crystalline |
| Purity(GC)               | 98-100 (%)                                           |
| NMR Spectrum 1H          | Conforms to Structure                                |
| GC-MS for identification | Conforms                                             |
