

## Specification Sheet

|                          |                                             |
|--------------------------|---------------------------------------------|
| Product Name:            | <b>N,N-Dipropargyl-p-toluenesulfonamide</b> |
| Specifications & Purity: | <b>&gt;98.0%(HPLC)</b>                      |
| SKU #                    | <b>N159654</b>                              |

| Parameter            | Limit Values                                     |
|----------------------|--------------------------------------------------|
| Melting point        | 59-63 (°C)                                       |
| Purity(HPLC)         | 98-100 (%)                                       |
| Appearance (N159654) | White to Yellow Crystals to Powder and/or Chunks |
| Proton NMR spectrum  | Conforms to Structure                            |
