## Specification Sheet

|                          |                                 |
|--------------------------|---------------------------------|
| Product Name:            | <b>N-Benzyl-N-methylaniline</b> |
| Specifications & Purity: | ≥98%                            |
| SKU #                    | <b>N194202</b>                  |

| Parameter            | Limit Values               |
|----------------------|----------------------------|
| Purity(GC)           | 98-100 (%)                 |
| Appearance (N194202) | Colorless to Yellow Liquid |
| Proton NMR spectrum  | Conforms to Structure      |
