## Specification Sheet

|                          |                                                    |
|--------------------------|----------------------------------------------------|
| Product Name:            | <b>N-Nitroso-N-(methyl-d3)-4-aminobutyric Acid</b> |
| Specifications & Purity: | 98.0 atom % D                                      |
| SKU #                    | <b>N358002</b>                                     |

| Parameter                  | Limit Values                                 |
|----------------------------|----------------------------------------------|
| Appearance (N358002)       | Off-white to yellow oil to low-melting solid |
| Isotopic purity (Atom % D) | 98-100 (%)                                   |
| Proton NMR spectrum        | Conforms to structure                        |
