## Specification Sheet

|                          |                                                                         |
|--------------------------|-------------------------------------------------------------------------|
| Product Name:            | <b>Oxo[hexa(trifluoroacetato)]tetrazinc trifluoroacetic acid adduct</b> |
| Specifications & Purity: | 95%                                                                     |
| SKU #                    | <b>O282556</b>                                                          |

| Parameter           | Limit Values                           |
|---------------------|----------------------------------------|
| Appearance(O282556) | White to Gray-White Crystalline Powder |
| Proton NMR spectrum | Conforms to structure                  |
| FNMR spectrum       | Conforms to Structure                  |
| Zinc(Zn)            | 24-28 (%)                              |
