

## Specification Sheet

|                          |                    |
|--------------------------|--------------------|
| Product Name:            | <b>Phthalimide</b> |
| Specifications & Purity: | 99%                |
| SKU #                    | <b>P104067</b>     |

| Parameter              | Limit Values                                 |
|------------------------|----------------------------------------------|
| Purity(HPLC)           | 99-100 (%)                                   |
| Melting point          | 230-238 (°C)                                 |
| Appearance (P104067)   | white powder, crystals, flakes and/or chunks |
| Solubility in hot MeOH | almost transparency                          |
| NMR Spectrum 1H        | Conforms to Structure                        |
