## Specification Sheet

|                          |                                |
|--------------------------|--------------------------------|
| Product Name:            | <b>3-Piperidinecarboxamide</b> |
| Specifications & Purity: | 97%                            |
| SKU #                    | <b>P121557</b>                 |

| Parameter                   | Limit Values                                     |
|-----------------------------|--------------------------------------------------|
| Melting point               | 108-113 (°C)                                     |
| Purity(NonaqueousTitration) | 97-100 (%)                                       |
| Appearance (P121557)        | White to Tan or Yellow Crystals, Powder or Solid |
| Infrared spectrum           | Conforms to Structure                            |
