

## Specification Sheet

|                          |                                              |
|--------------------------|----------------------------------------------|
| Product Name:            | (R)-(+)-4-(Methoxymethyl)-1,3-dioxolan-2-one |
| Specifications & Purity: | ≥98%(GC)                                     |
| SKU #                    | R160947                                      |

| Parameter                                          | Limit Values          |
|----------------------------------------------------|-----------------------|
| Purity(GC)                                         | 98-100 (%)            |
| NMR Spectrum 1H                                    | Conforms to Structure |
| specific rotation $[\alpha]_{20/D}(c=\text{Neat})$ | 44-47 (°)             |
