

## Specification Sheet

Product Name: **Rhenium(V) chloride**  
Specifications & Purity: **≥99%**  
SKU #: **R488329**

| Parameter                                                   | Limit Values                                       |
|-------------------------------------------------------------|----------------------------------------------------|
| Appearance(R488329)                                         | Dark Green to Black Crystals or Crystalline Powder |
| ICP: Confirms Rhenium Component                             | Confirmed                                          |
| Re(Gravimetric Analysis, With Tetraphenylarsonium Chloride) | 49.6-52.2 (%)                                      |
| X-Ray Diffraction                                           | Conforms to Structure                              |
