

## Specification Sheet

|                          |                                 |
|--------------------------|---------------------------------|
| Product Name:            | <b>Sinomenine Hydrochloride</b> |
| Specifications & Purity: | 97%                             |
| SKU #                    | <b>S105956</b>                  |

| Parameter            | Limit Values          |
|----------------------|-----------------------|
| Melting point        | 231-235 (°C)          |
| Purity(HPLC)         | 97-100 (%)            |
| Appearance (S105956) | white powder          |
| Proton NMR spectrum  | Conforms to Structure |
