## Specification Sheet

|                          |                                                     |
|--------------------------|-----------------------------------------------------|
| Product Name:            | <b>Silver powder</b>                                |
| Specifications & Purity: | powder, 99.95% metals basis, $\leq 10\ \mu\text{m}$ |
| SKU #                    | <b>S110971</b>                                      |

| Parameter                               | Limit Values                            |
|-----------------------------------------|-----------------------------------------|
| Total Metallic Impurities               | 0-500 (ppm)                             |
| Particle size                           | 0-10 ( $\mu\text{m}$ )                  |
| Purity (Based On Trace Metals Analysis) | 99.95-100 (%)                           |
| Appearance (S110971)                    | Silver, Grey, Off-White or Beige Powder |
| X-Ray Diffraction                       | Conforms to Structure                   |
