## Specification Sheet

|                          |  |
|--------------------------|--|
| Product Name:            | <b>Salicylic acid Melting Point Standard</b> |
| Specifications & Purity: | +158 to +160°C                               |
| SKU #                    | <b>S128322</b>                               |

| <b>Parameter</b>     | <b>Limit Values</b>                |
|----------------------|------------------------------------|
| Purity(HPLC)         | 99.5-100 (%)                       |
| Melting point        | 158-160 (°C)                       |
| Appearance (S128322) | White Powder or Crystalline Powder |
| Infrared spectrum    | Conforms to Structure              |
