## Specification Sheet

|                          |                                          |
|--------------------------|------------------------------------------|
| Product Name:            | (S)-(4-Isopropylloxazolin-2-yl)ferrocene |
| Specifications & Purity: | 98%                                      |
| SKU #                    | S161066                                  |

| Parameter                                                | Limit Values                            |
|----------------------------------------------------------|-----------------------------------------|
| Appearance(S161066)                                      | Light yellow to Brown powder to crystal |
| Purity(HPLC area)                                        | 98-100 (%)                              |
| Specific Rotation $[\alpha]_{20/D}(c=1 \text{ in EtOH})$ | -137--133 (°)                           |
| NMR Spectrum $^1\text{H}$                                | Conforms to Structure                   |
