## Specification Sheet

|                          |                                                        |
|--------------------------|--------------------------------------------------------|
| Product Name:            | <b>Sodium poly[(naphthaleneformaldehyde)sulfonate]</b> |
| Specifications & Purity: | 40%                                                    |
| SKU #                    | <b>S196304</b>                                         |

| Parameter           | Limit Values          |
|---------------------|-----------------------|
| Appearance(S196304) | brown powder          |
| Solid Content       | ≥40 (%)               |
| Infrared spectrum   | Conforms to Structure |
