

## Specification Sheet

Product Name: **Silicon carbide**  
Specifications & Purity:  $\geq 400$  mesh particle size,  $\geq 97.5\%$   
SKU #: **S294892**

| Parameter                                    | Limit Values                      |
|--|-----------------------------------|
| Appearance(Color)(S294892)                   | Grey powder or crystalline powder |
| X-Ray Diffraction                            | Conforms to Structure             |
| Purity(ICP)                                  | 97.5-100 (%)                      |
| Particle Size Distribution( $\geq 400$ Mesh) | >90(%)                            |
