## Specification Sheet

|                          |                                             |
|--------------------------|---------------------------------------------|
| Product Name:            | <b>S-Carboxyethylisothiuronium Chloride</b> |
| Specifications & Purity: | Solid content $\geq 98\%$                   |
| SKU #                    | <b>S303941</b>                              |

| Parameter           | Limit Values          |
|---------------------|-----------------------|
| Proton NMR spectrum | Conforms to Structure |
| Solid Content       | 98-100 (%)            |
| Chloride (Cl-)      | pass                  |
