## Specification Sheet

|                          |                                    |
|--------------------------|------------------------------------|
| Product Name:            | <b>Sodium borohydride solution</b> |
| Specifications & Purity: | 0.5 M in 2-methoxyethyl ether      |
| SKU #                    | <b>S432204</b>                     |

| Parameter                         | Limit Values     |
|-----------------------------------|------------------|
| Concentration(Hydrogen Evolution) | 0.4-0.6 (mol/L)  |
| Appearance(S432204)               | Colorless Liquid |
