

## Specification Sheet

|                          |                                                                |
|--------------------------|----------------------------------------------------------------|
| Product Name:            | <b>2,2,2-Trifluoro-1-(3-pyridinyl)ethylamine hydrochloride</b> |
| Specifications & Purity: | 95%                                                            |
| SKU #                    | <b>T166022</b>                                                 |

| Parameter                | Limit Values                                          |
|--------------------------|-------------------------------------------------------|
| Appearance(T166022)      | White to Light Yellow to Dark Powder Solid or Crystal |
| Purity(HPLC)             | 95-100 (%)                                            |
| Proton NMR spectrum      | Conforms to structure                                 |
| FNMR spectrum            | Conforms to Structure                                 |
| LC-MS for identification | Conforms                                              |
