## Specification Sheet

|                          |                                  |
|--------------------------|----------------------------------|
| Product Name:            | <b>Tris-Hydrochloride Buffer</b> |
| Specifications & Purity: | 1M , pH 9.5                      |
| SKU #                    | <b>T301497</b>                   |

| Parameter            | Limit Values                  |
|----------------------|-------------------------------|
| Concentration        | 0.95-1.05 (mol/L)             |
| PH(25 °C)            | 9.4-9.6                       |
| Appearance (T301497) | Colorless, transparent liquid |
