## Specification Sheet

|                          |                                            |
|--------------------------|--------------------------------------------|
| Product Name:            | <b>Triethylammonium bicarbonate buffer</b> |
| Specifications & Purity: | 1.0M, pH 8.5±0.1                           |
| SKU #                    | <b>T466164</b>                             |

| Parameter           | Limit Values           |
|---------------------|------------------------|
| Appearance(T466164) | Clear Colorless Liquid |
| pH                  | 8.4-8.6                |
| Concentraion        | 0.99-1.01 (mol/L)      |
