## Specification Sheet

|                          |                                                          |
|--------------------------|----------------------------------------------------------|
| Product Name:            | (4-(4-Methoxyphenyl)tetrahydro-2H-pyran-4-yl)methanamine |
| Specifications & Purity: | ≥95%                                                     |
| SKU #                    | T699309                                                  |

| Parameter                | Limit Values          |
|--------------------------|-----------------------|
| Purity(HPLC)             | 95-100 (%)            |
| LC-MS for identification | Conforms              |
| Proton NMR spectrum      | Conforms to Structure |
