

Specification Sheet

Product Name:	Trypsin solution from porcine pancreas
Specifications & Purity:	for cell culture, BioReagent, sterile-filtered, 1 ×, 2.5 g porcine trypsin per liter in Hanks' Balanced Salt Solution with phenol red
SKU #	T755941Z

Parameter	Limit Values
Appearance(T755941Z)	Clear solution
Detachment Time Cell 1	0-10 (min)
Detachment Time Cell 2	0-10 (min)
Mycoplasma Test by Barile on raw material	Pass
Osmolality	275-319 (mOs/kg)
Parvovirus on raw material	Pass
pH	7.0-7.6
Sterility by USP guidelines	Pass
Trypsin Activity (BAEE U/ml)	2500-6000
Viability viable/4 day culture of cell line 1	≥90 (%)
Viability viable/4 day culture of cell line 2	≥90 (%)
