## Specification Sheet

Product Name: **2-Chloro-6-fluorobenzothiazole**  
Specifications & Purity: **≥97%**  
SKU #: **W136599**

| Parameter                                        | Limit Values                                     |
|--------------------------------------------------|--------------------------------------------------|
| Purity(O2 AgNO3 titration with after combustion) | 96.5-103.5 (%)                                   |
| Purity(GC)                                       | 97-100 (%)                                       |
| Appearance (W136599)                             | White to Yellow Crystals to Powder and/or Chunks |
| Fluorine NMR Spectrum                            | Conforms to Structure                            |
| Proton NMR spectrum                              | Conforms to Structure                            |
