## Specification Sheet

|                          |                   |
|--------------------------|-------------------|
| Product Name:            | <b>Wang resin</b> |
| Specifications & Purity: | 100-200mesh       |
| SKU #                    | <b>W331920</b>    |

| Parameter           | Limit Values                           |
|---------------------|----------------------------------------|
| Appearance(W331920) | Pale to yellow Crystal powder or beads |
| Infrared spectrum   | Conforms to Structure                  |
| Particle size       | 100-200 (mesh)                         |
| Divinyl Benzene     | 0.5-1.5 (%)                            |
| Substitution        | 1.0-1.4 (mmol/g)                       |
