## Specification Sheet

|                          |                                                               |
|--------------------------|---------------------------------------------------------------|
| Product Name:            | <b>Xylylazo Violet II [Spectrophotometric reagent for Mg]</b> |
| Specifications & Purity: | <b>&gt;95.0%(HPLC)</b>                                        |
| SKU #                    | <b>X162983</b>                                                |

| Parameter                | Limit Values          |
|--------------------------|-----------------------|
| Purity( total nitrogen ) | 95-100 (%)            |
| Infrared spectrum        | Conforms to Structure |
