|-----------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------|-----------|
| PRODUCT NAME    | F4545-Kitt Filtration Apparatus with 47 mm Fritted Disc,40/35 Joint Connections                                                                                                              | PRODUCT NUMBER | F4545-Kit |
| Grades & Purity | Funnel:Graduated,10.14 oz.(300ml),47mm Fritted Disc;Clamp:47mm Aluminum-Magnesium Alloy;Base:47mm Fritted Support,40/35 Joint;Flask:40/35 Joint,33.81 oz.(1L) Filtering,Wall Thickness>5.0mm | VERSION        | 3         |

## ACCEPTANCE CRITERIA

| PARAMETER                                                  | SPECIFICATION / LIMIT |
|------------------------------------------------------------|-----------------------|
| Appearance(Smooth and clean,clear,silvery)                 | Pass                  |
| Material(High borosilicate glass,Aluminum-Magnesium Alloy) | Pass                  |
| Volume(Cup)                                                | ≥300 (ml)             |
| Diameter(Clamp)                                            | 44-50 (mm)            |
| Volume(Flask)                                              | ≥1000 (ml)            |
| Thickness(Flask)                                           | > 5 (mm)              |
